SUMMARY

Aspiring MERN Stack Developer with hands-on experience building full-stack web applications using React.js, Node.js, Express.js, MongoDB, and Django. Experienced in developing responsive user interfaces, implementing authentication systems, and integrating REST APIs through academic projects and internship experience. Seeking an opportunity to contribute to innovative development teams and grow as a full-stack engineer.

EDUCATION

Graduated at PSG College of Arts & Science	2023-2026
Completed HSC at Shri KK Naidu Memorial Hr Sec School	2021-2023
Completed SSLC at RJ Matriculation Hr Sec School	2020-2021

INTERNSHIP

Accounting, Sales & Marketing Intern

Future Tech Engineering – Coimbatore

- Day to Day activities across accounting, sales and marketing functions.
- Assisted in maintaining and organizing financial records and business documentation.
- Developed good communication and better customer relationship and teamwork skills through practical business exposure.

PROJECT

Social Media:

[Live](#) | [SrcCode](#)

- Built features allowing users to create, edit, and delete posts, with like and comment functionality.
- Implemented real-time chat between users using [Socket.io/whatever you used — fill in].
- Added user authentication (login/logout) with session/token-based access control.
- Integrated MongoDB for storing user profiles, posts, and chat history.

E-Commerce Website:

[Live](#) | [SrcCode](#)

- Built a product search and filtering system using an external product API.
- Implemented a shopping cart with add/remove functionality and quantity updates.
- Designed responsive product listing and detail pages with React.

YouTube Clone:

[Live](#) | [SrcCode](#)

- Built a video search feature integrated with the YouTube Data API (or your actual API).
- Implemented an embedded video player with related/suggested videos sidebar.
- [Add: comments, likes, channel pages — whatever you actually built].
